

## BLADE LED-R

---

A compact, recessed LED exit sign luminaire offering the benefits of long life lamp, low energy and simple installation. Supplied with 15 long life, high output white LEDs. Blade LED-R offers a more compact solution when compared with its conventional fluorescent counterparts resulting in a more attractive installation yet still providing a 33m viewing distance.

## FEATURES

- Recessed edge lit LED exit sign provided with fully adjustable suspension arms to accommodate differing ceiling types
- Sheet steel housing with 10mm visible ceiling plate
- Fitted with 15 LEDs and integral maintained control gear
- Choice of white painted, brass or chrome finishes
- Recess depth of only 60mm
- Double sided for two direction viewing and available with a range of pictogram legends
