

## BLADE LED-S

---

A versatile range of LED exit sign luminaires offering the benefits of long lamp life, low energy and flexible mounting solutions. Supplied with 15 long life, high output white LEDs, Blade LED-S offers a more compact solution when compared with its conventional fluorescent counterparts resulting in a more attractive installation yet still providing a 28m viewing distance.

## FEATURES

- Surface mounted edge lit LED exit sign available with wall mounting bracket, ceiling mount bracket, end fixing (flag) bracket or chain suspension
- Extruded aluminium, low profile unobtrusive housing
- Fitted with 15 LEDs and integral maintained control gear
- Choice of anodised aluminium, brass or chrome finishes
- Ease of installation using the two quarter turn quick release latches
- Double sided for two direction viewing and available with a range of pictogram legends
