

SCOPE

The Scope range offers simple and effective emergency lighting from attractive high intensity projectors. Suitable for areas with aesthetic concerns, ideal for a wide range of applications requiring open area illumination.

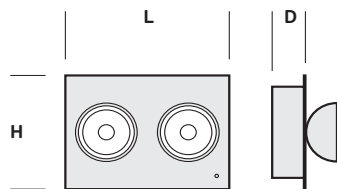

FEATURES

- Anodised aluminium heads and a metallic grey powder coat finish to the main enclosure
- Self-contained circuit provides charge healthy monitoring and lamp filament monitoring
- The twin 20W lamps provide 3 hour duration from the integral VRLA batteries and fully comply with the requirements of EN60598.2.22
- Supplied as standard with non-maintained operation
